SKILLS AND LANGUAGES

Programming (R, Python, Matlab, Stata)

Software (xhtml, php, GIS, Git)

Languages: French (native language), English (fluent), Spanish (fluent)

PROFESSIONAL EXPERIENCE

World Bank, Consultant (November 2019 - June 2020), New York, New York

- Participated in a review study for the assessment of disability questions in Low and Middle Income Countries (LMIC) general household surveys, with a special focus on surveys including the Washington Group short set of disability questions.
- Helped develop Key Indicators to track disability across LMIC countries.

SUEZ, Business/Financial Analyst (July 2013 - June 2016), Paramus, New Jersey

- Analyzed, interpreted, and created financial models for the second biggest water resources management company in the United States (764 million revenues).
- Modeled and analyzed the water losses during the water distribution process for projects valued at 30 million.
- Developed a high-level business model to forecast financial statements depending on different investment strategies.
- Participated in the improvement of the key performance indicators for water management.

French Agency for Development, Analyst for Development Projects (May-October 2012), Paris, France

- Analyst for project financing in emerging countries (projects valued at 3 to 100 million).
- Conducted social impact analysis and financial analysis for 15 projects in a variety of fields including: the agricultural sector in Gabon, the education field in Peru, the health sector in Egypt and Indonesia, and the water treatment industry in China.
- Attended and participated in workshops, conferences and discussions on development finance
- Involved in each step of the financing process:
 - Oversaw the due diligence process during the instructional period.
 - Participated in market and impact analyses for the projects.
 - Analyzed the financials of partner companies and project projections.
 - Participated in term-sheet negotiations.
 - Assisted in credit committees.

Foundation Altiplano, Head Intern for Development Project (February-June 2011), Arica, Chile

- Assisted in a microeconomic study of the northern region of Chile (Arica-Parinacota).
- Executed economic diagnostic studies of villages in the Cordillera for the implementation of a developmental project (construction of a museum, renovation of churches, creation of a sustainable touristic circuit).
- Promoted sustainable development and repopulation in rural Andean communities through the strengthening of traditional culture and local economy.
- Created a business plan for the implementation for the project in one town.

US French Embassy, Intern, Economic Department (July 2010-January 2011), Washington D.C., United States

- Analyzed the role of speculation in price volatility for agricultural commodities and their impact in the local economy of developing countries.
- Participated in the redaction of reports and studies on environmental and agricultural issues in the United States
- Wrote memos and made presentations on trade of agricultural and food commodities between France and the United States.
- Researched and wrote reports concerning agricultural policies in the United States.
